JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Acetonitrile
The electrochemical reduction of CO_2 to oxalate at a Pt electrode immersed in acetonitrile and coated with polyvinylalcohol/$[Ni(dppm)_2Cl_2]$ (Christensen, Higgins) 127
Adsorption
Electrochemically-controlled waveguide-coupled surface plasmon sensing (Lavers et al.) 11
Amorphous WO_3
Electrochemical intercalation of cations into an amorphous WO_3 film and accompanying changes in mass and surface properties (Inaba et al.) 71

Cadmium telluride
Investigation of the influence of the electrodeposition potential on the optical, photoelectrochemical and structural properties of as-deposited CdTe (Kampmann et al.) 53
Calixarenes
Electrochemical recognition of ammonium and alkali metal cations with calix[4]arenediquinone (Choi et al.) 133
Carbohydrate compounds
Characterization of carbohydrate oxidation at copper electrodes (Luo, Baldwin) 87
Carbonylation
Electrochemical carbonylation of organoiron methyl complex: a study of reaction intermediates (Amatore et al.) 101
Chlorophyll *a*
Cyclic voltammetric and spectrophotometric study of microcrystalline chlorophyll *a* electrodeposited on the ITO optically transparent electrode (Suponeva et al.) 123
CO_2
The electrochemical reduction of CO_2 to oxalate at a Pt electrode immersed in acetonitrile and coated with polyvinylalcohol/$[Ni(dppm)_2Cl_2]$ (Christensen, Higgins) 127
Electrochemical synthesis of urea on reduction of carbon dioxide with nitrate and nitrite ions using Cu-loaded gas-diffusion electrode (Shibata et al.) 143
Current-time transients
Generalization of transient equations due to the growth of hemispheroids (Abyaneh) 29
Cyclic voltammetry
Cyclic voltammetric and spectrophotometric study of microcrystalline chlorophyll *a* electrodeposited on the ITO optically transparent electrode (Suponeva et al.) 123

Dansyl amino acids
Retention characteristics of polypyrrole as a stationary phase for the electrochemically modulated liquid chromatographic (EMLC) separations of dansyl amino acids (Deinhammer et al.) 35
1,4-Dioxane + water mixtures
Solvation potentials and transport properties in 1,4-dioxane + water mixtures (Gregory, McTigue) 65

Electrodeposition
Investigation of the influence of the electrodeposition potential on the optical, photoelectrochemical and structural properties of as-deposited CdTe (Kampmann et al.) 53
Cyclic voltammetric and spectrophotometric study of microcrystalline chlorophyll *a* electrodeposited on the ITO optically transparent electrode (Suponeva et al.) 123
Electro-oxidation
Characterization of carbohydrate oxidation at copper electrodes (Luo, Baldwin) 87
EMLC
Retention characteristics of polypyrrole as a stationary phase for the electrochemically modulated liquid chromatographic (EMLC) separations of dansyl amino acids (Deinhammer et al.) 35

Frequency–temperature coefficient
Frequency–temperature coefficient of an electrode-separated piezoelectric sensor in the liquid phase (Xu et al.) 23

Galvanic cells
Solvation potentials and transport properties in 1,4-dioxane + water mixtures (Gregory, McTigue) 65
Gas diffusion electrodes
A modelling approach to the characterization of the limiting polarization behaviour of gas diffusion electrodes (Ticianelli) 1
Grafov's equation
On the possibility of verifying the new entropy equation (Gokhshtein) 121

Hemispheroid growth
Generalization of transient equations due to the growth of hemispheroids (Abyaneh) 29

Impedance spectroscopy
Conductivity of tetramethylammonium fluoride tetrahydrate (Opallo et al.) 47
Infinite dilution
On the possibility of verifying the new entropy equation (Gokhshtein) 121
Ionic conductors, solid electrolytes
Conductivity of tetramethylammonium fluoride tetrahydrate (Opallo et al.) 47

Metal–alkyl bonds
Electrochemical carbonylation of organoiron methyl complex: a study of reaction intermediates (Amatore et al.) 101
Modelling
A modelling approach to the characterization of the limiting polarization behaviour of gas diffusion electrodes (Ticianelli) 1

Nitrate
Electrochemical synthesis of urea on reduction of carbon dioxide with nitrate and nitrite ions using Cu-loaded gas-diffusion electrode (Shibata et al.) 143

Nitrite
Electrochemical synthesis of urea on reduction of carbon dioxide with nitrate and nitrite ions using Cu-loaded gas-diffusion electrode (Shibata et al.) 143

Optical waveguide
Electrochemically-controlled waveguide-coupled surface plasmon sensing (Lavers et al.) 11

Organoiron complexes
Electrochemical carbonylation of organoiron methyl complex: a study of reaction intermediates (Amatore et al.) 101

PbO_2
A study of the reduction process of anodic PbO_2 film on Pb in sulfuric acid solution (Cai et al.) 95

Peptide
Peptide derivatised poly(pyrrole) modified electrodes with built-in ion-exchange functions (Ibrahim et al.) 139

Photoelectrochemistry
Investigation of the influence of the electrodeposition potential on the optical, photoelectrochemical and structural properties of as-deposited CdTe (Kampmann et al.) 53

Piezoelectric sensor
Frequency–temperature coefficient of an electrode-separated piezoelectric sensor in the liquid phase (Xu et al.) 23

Platinum (111) surface
The effects of anions on the underpotential deposition of Tl on Pt(111): a voltammetric study (Wheeler et al.) 115

Polarization behaviour
A modelling approach to the characterization of the limiting polarization behaviour of gas diffusion electrodes (Ticianelli) 1

Polymer film electrodes
Analysis of charge transport impedance in the reduction of thin films of conducting polyaniline in aqueous trichloroacetic acid solutions (Grzeszczuk, Poks) 79

Polypyrrole
Retention characteristics of polypyrrole as a stationary phase for the electrochemically modulated liquid chromatographic (EMLC) separations of dansyl amino acids (Deinhammer et al.) 35

Pyrrole
Peptide derivatised poly(pyrrole) modified electrodes with built-in ion-exchange functions (Ibrahim et al.) 139

Quartz crystal microbalance
Electrochemical intercalation of cations into an amorphous WO_3 film and accompanying changes in mass and surface properties (Inaba et al.) 71

Reduction
A study of the reduction process of anodic PbO_2 film on Pb in sulfuric acid solution (Cai et al.) 95
The electrochemical reduction of CO_2 to oxalate at a Pt electrode immersed in acetonitrile and coated with polyvinylalcohol/$[Ni(dppm)_2Cl_2]$ (Christensen, Higgins) 127

Rubidium
In-situ X-ray absorption spectroscopic study of underpotential deposition of Rb^+ on carbon-supported Pt in aqueous solution (Yoshitake et al.) 135

Simultaneous reduction
Electrochemical synthesis of urea on reduction of carbon dioxide with nitrate and nitrite ions using Cu-loaded gas-diffusion electrode (Shibata et al.) 143

Solar cell
Investigation of the influence of the electrodeposition potential on the optical, photoelectrochemical and structural properties of as-deposited CdTe (Kampmann et al.) 53

Solvation potentials
Solvation potentials and transport properties in 1,4-dioxane + water mixtures (Gregory, McTigue) 65

Surface plasmon
Electrochemically-controlled waveguide-coupled surface plasmon sensing (Lavers et al.) 11

Thallium
The effects of anions on the underpotential deposition of Tl on Pt(111): a voltammetric study (Wheeler et al.) 115

Transient equations
Generalization of transient equations due to the growth of hemispheroids (Abyaneh) 29

Transport properties
Solvation potentials and transport properties in 1,4-dioxane + water mixtures (Gregory, McTigue) 65

Underpotential deposition
In-situ X-ray absorption spectroscopic study of underpotential deposition of Rb^+ on carbon-supported Pt in aqueous solution (Yoshitake et al.) 135

Urea
Electrochemical synthesis of urea on reduction of carbon dioxide with nitrate and nitrite ions using Cu-loaded gas-diffusion electrode (Shibata et al.) 143
